APPLICATION DEVELOPMENT TRAINEE

As a trainee in our Application Development team you will have the opportunity to gain an insight into a variety of activities and tasks. You will be part of the IT department and will support the day-to-day business and contribute to Application Development-related projects. This opportunity is a full-time internship contract of six months. Alternatively, a part-time internship over 12 months is also possible.

ABOUT THE JOB | What will you do?

As an Application Development trainee, you will be responsible for the following activities:

- Design, draft and maintain functionalities, modules, services and workflows following agile best practices to deliver the defined requirements on time
- Ensure code quality by following the code convention and correcting potential issues detected by internal automatic processes
- Collaborate with Product Delivery, Quality Assurance and other delivery team members
- Proactively identify and suggest improvements of SDLC procedures and processes

ABOUT YOU | What's your background?

- You are enrolled at or recently graduated from a college or university in IT
- Interest in Software Development, Quality Assurance or IT Infrastructure/Architecture
- Good command of MS office and programming languages such as C# or MS SQL
