

TEST OFFICER

(M/F) – FULL TIME

Advanzia Bank S.A. is a European online direct bank specialising in credit cards and card payment solutions for consumers, business partners and financial institutions. Advanzia was founded in 2005 in Luxembourg. With over one million active credit card customers, we are a leading online credit card issuer in Germany and have a strong presence in Luxembourg, Austria and France. Moreover, we recently launched our no-fee credit card in Spain.

As a result of our continuous growth, Advanzia offers many job opportunities for dynamic, skilled and open-minded team players. We are currently looking for a Test Officer to join our Technology and Projects Department.

ABOUT THE JOB

The Test Officer is part of the Technology and Projects Department and is responsible for the planning, preparation and execution of tests to ensure that implemented functionalities meet business requirements and user expectations. The Test Officer will be responsible for the following activities:

- Design, develop, plan and implement test strategies covering various applications
- Review and analyse business requirements (user stories) and acceptance criteria
- Generate high and low level test cases covering specific business requirements
- Prepare test data for test execution
- Establish a database for regression tests
- Execute manual and automated functional tests or automation tests to ensure specific quality levels with regards to business requirements
- Support integration testing activities of system components in the cross-functional team
- Document test executions and test results from different test environments
- Document and report all identified quality issues and defects
- Generate test progress reports and ensure proper communication towards the Project Manager, Business Analysts and the involved departments
- Organise and conduct demo sessions

ABOUT YOU

- Bachelor or Master degree in an IT related field of study
- Work experience in functional or automation software testing
- Practical experience with test management tools and frameworks (e.g. Robot framework, SOAP UI)
- Knowledge of functional testing and of test automation for APIs/web services or web applications
- Experience with agile software development processes and techniques
- Experience in integration testing of system components, as well as system integration testing is a plus
- Experience in the credit card business or payment industry is also a plus

- Support departments during User Acceptance Tests
- Support the Test Manager in the improvement of the QA/Test Procedure

WHAT WE EXPECT

- A results-driven and service-oriented individual
- Strong analytical skills to analyse requirements and systems
- Ability to quickly understand complex applications and to transfer knowledge
- Excellent verbal and written communication skills, as well as a capacity to work in a very structured way
- Great team spirit, open-minded with desire to learn and develop in a fast-moving international IT environment
- Fluency in English is required; other European languages (e.g. German, French or Spanish) are advantageous

WHAT WE OFFER

- Attractive benefits as part of the banking collective agreement
- Wide range of additional benefits, e.g. Sympass, luncheon vouchers, transportation allowance, etc.
- On-the-job training
- Dynamic and international work environment
- Participation in various CSR initiatives

Located in bright and modern offices in Munsbach at 15 minutes from Luxembourg City, Advanzia currently employs around 180 staff from all over Europe. We offer a pleasant and collaborative working atmosphere in a truly multicultural environment, and we are always looking for talented and enthusiastic people to join our team.

Looking for a new professional challenge in a fast-growing company?
