## **DATA MANAGER**

Advanzia Bank is a European digital bank specialising in credit cards and card payment solutions for consumers, business partners and financial institutions. Advanzia was founded in 2005 in Luxembourg. With over 1.7 million active credit card customers, we are a leading online credit card issuer in Germany and have a strong presence in Luxembourg, Austria, France and Spain. As a result of our continuous growth, we offer many job opportunities for dynamic, skilled and open-minded team players!

### **ABOUT THE JOB** | What will you do?

The Data Manager is part of the IT Services Department, which supports the daily operations of the bank's production environment, including project implementation, Enterprise Architecture, Data Management and Provider management.

#### **Strategic responsibilities**

- Establish Data Management practices by creating Data Governance schema, policies & procedures
- Collaborate with Architects, Provider Management and Business Engineering to design and enforce data management standards
- Liaise with business and product teams to determine data needs in terms of quality and volume
- Formulate techniques for quality data collection to ensure adequacy, accuracy and legitimacy of data
- Devise and implement efficient and secure data handling procedures and analysis with attention to all technical aspects
- Assist with recognising and upholding digital security systems to protect information

#### **Operational responsibilities**

- Influence and direct the Datawarehouse team in adopting and implementing data management principles
- Assist Enterprise Architecture to design Cloud-based data topologies
- Support others in the daily use of data systems and ensure adherence to legal and company standards
- Monitor and analyse information and data systems for performance evaluations and continuous improvement (new technologies, upgrades etc.)
